

# HERE AND THERE IN THE CALUMET REGION

## Day's Grist in South Chicago

FOUR PEOPLE TRAPPED UNDER FALLING BUILDING.

Trying to rescue three little girls at a play under a house that was about to fall upon them, Axel Ivers, a carpenter, 7515 St. Lawrence avenue, was probably fatally injured yesterday. He and the three little girls were caught under the floor of the house as it fell, and were rescued an hour later by the members of the fire department, who chopped up the floor.

The house was located at 5110 Troy street, and had been raised about four feet by a contractor. It was the home of John Gregory, whose daughter, Rose, 6 years old, was one of those entrapped. The other girls were Irene Murray, 6 years old, 3212 Center avenue, and Eleanor Kohr, 5 years old, 4132 Kedzie avenue.

## MAN KILLED AT SOUTH CHICAGO BY L. S. TRAIN.

About to climb aboard an east-bound freight train to ride as a blind passenger to his home at Smithport, Pa., Fred Purtee was struck by a west-bound freight train this morning at Ninety-third street and the Lake Shore tracks, and instantly killed.

Purtee, who is a man apparently about 25 years old, had been in South Chicago for some time, and being out of work decided to return home. He was without money and had only a card in his pocket by which he could be identified.

The body was badly mangled and crushed to almost an unrecognizable shape. The remains were taken to Murphy's morgue, where the inquest will be held this afternoon. The conductor of the west-bound freight, whose train killed the man, is James Lawley of Elkhardt, Ind.

Have a Great Time.

Over 300 Sunday school children from the East Side Swedish Lutheran church journeyed to Hammond yesterday where they enjoyed a day's outing at Douglas Park, the guests of their pastor, Rev. Andre Anderson. The day was spent in playing games and other varied forms of amusement. Those who made the trip report one of the most pleasant trips of the season.

Where THE TIMES May Be Had.

## NEW DENTAL PARLORS FIRST AID TO INJURED

Dr. M. Nickerson Opens Branch in South Chicago  
—Is Very Elaborate.

Another new dental office has opened in South Chicago, 275 Ninety-second street, under the name of the Electro Dental company, with Dr. M. Nickerson and Dr. A. J. Ferner in charge.

The parlors compare favorably to the main office of the Nickerson dental parlors, 256 Ninety-second street, and the interior is furnished with elaboration. Nothing has been spared to fit up the parlors and the five chairs, which compose the main fixtures, are located both front and rear. Two convenience of patrons. The walls and ceilings have been painted and decorated in artistic style, and with the profuse lighting apparatuses, both on the in and outside, gives the place a very pretty appearance.

The floor of the new place is made entirely of cork and the rugs, which are used, are inlaid in the cork and can be taken out with ease. The electric lights are fitted up with the rosebud shades and the gas lights are also fixed up with something on the same order.

**Brackets Are a Feature.**  
A laboratory, which is fitted out to perfection, is a feature of the place. Special gas brackets, which are used by Dr. Nickerson, were made especially for him to use in his business. The brackets can be adjusted to any angle and were made at a very large expense, an other dental parlor in the city of Chicago having them.

The steps in the hallway leading to the parlors are made of entire rubber, the top of each step being inlaid with a mirror which gives it a very unique appearance. The gas lamps used were designed by the doctor himself for his special use in the dental parlors.

No expense was spared in making this parlor the best in South Chicago, and probably in Chicago. In all, about \$3,000 has been expended in fitting out the place.

Dr. Nickerson is well known throughout South Chicago, having been in business here for the past thirteen years.

## FLEMING WINS MATCH

Handbill Court at South Deering is Becoming Very Popular.

Following is the results of the games played at O'Malley's hand bill court yesterday:

J. Fleming won the challenge match from M. Mack with a score of 10, 21, 21 to 10, 15.

Other scores:  
J. McNulty and C. O'Keefe, 21, 18, 21.  
J. Dorsey and E. Finn, 17, 21, 19.  
Dan Stevenson and J. Mmth, 21, 21.  
Pat McGill and J. Conley, 15, 19.  
Tom O'Malley and M. McDonald, 21, 21.

Fleming and J. McNulty, 18, 14.  
The hand bill court at South Deering is becoming one of the most prominent on the South Side and hundreds of players assemble there each Sunday to witness three match games. A large number of good matches are scheduled for Sunday which will draw a large crowd from all parts of the city.

## Fertile Lands of the Globe.

It is estimated that the fertile lands of the globe amount to 28,000,000 square miles, the steppes to 14,000,000 and the deserts to 1,000,000. Fixing 207 persons to the square mile for fertile lands, ten for steppes and one for deserts as the greatest population that the earth could possibly nourish, scientists have arrived at the conclusion that when the number of inhabitants reaches 6,000,000,000 the earth will be peopled to its full capacity. At present it contains somewhat more than one-quarter of that number. If the rate of increase shown by the latest census statistics should be uniformly maintained the globe would be fully peopled about the year 2072.

## CURES ECZEMA QUICKLY.

New Drug, Psolium, Now Obtainable in Small Quantities.

Since its discovery one year ago, the new drug, psolium, has successfully cured thousands of chronic cases of eczema and other distressing skin affections. Heretofore psolium has been dispensed solely for the benefit of eczema patients in large jars sufficient for a month's treatment. This was to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, scaly scalp, complexion blemishes, itching feet, piles, etc., which require but a small quantity to cure. The overcome this, and in response to urgent appeals, the dispensers of psolium have been obliged to adopt, in addition to the regular two-dollar package, a special fifty-cent size, which in future may be found on sale at J. W. Wels' and other leading drug stores in Hammond or may be ordered direct from the Emergency Laboratories, No. 32 West 25th street, New York City. In all eczema cases psolium stops itching with first application, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application. Samples for experimental purposes may still be had, free of charge, by writing to the laboratories for them.

Employees of Mill Present Fellow Worker With a Purse.

Emil Tetts, 9957 Avenue M, who was injured last week at the Illinois Steel Company's plant by the bursting of an emery wheel, was yesterday presented with \$250 by the employees of the mill and of the department in which he was employed.

While operating an emery wheel last Friday the wheel bursted and one of the largest pieces struck Tetts on the base of the skull, causing a serious fracture. The injured man was taken to the Company's hospital, Eighty-eighth street and Macdonald avenue, where it is said that he will recover. Tetts, who is a machinist at the mill, has a large family consisting of a wife and nine children, and his being injured would probably have seriously affected the family but for the collection that was taken up at the mill.

When it was learned that Tetts had a large family depending upon his support, the employees began to discuss what could be done for the family, which ended in the money being raised. With few exceptions the money came from the department in which Tetts was employed.

Tetts is one of the most popular men in the machine shops and his host of friends hope to see him out of the hospital within a few weeks. Owing to the serious fracture, it will be necessary to insert a silver plate in order to save his life.

## CAMPAIGN WARMING UP

Choice of Candidates is Up to the People Alone.

Judging from the lively interest that the people of the Calumet region are taking in the primary campaign there will be a large vote August 8, when the new law will be exemplified for the first time. The candidates who receive the most votes will be nominees of their parties without the old time convention which took up such a large amount of time.

Thus it is seen that, as never before, the people will control the primaries, and it is evident that realizing this a large percentage of the voters will turn out for the coming primaries and will thereby govern their part tickets instead of leaving it to the choice of the political leaders as has been the custom in the majority of cases during the past.

It is therefore necessary that the voters should be acquainted with the past records of the men who are seeking public offices.

Between now and the coming primaries THE TIMES will print sketches of the aspiring candidates.

In making these reports no partiality will be shown and all candidates will be given a square deal.

The first sketches will appear in tomorrow's issue of this paper.

## BETTER THAN CIPHER WRITING.

South Sea Islanders Have Unique Way of Sending Messages.

The day was warm and the sailor turned on the electric fan and stood in its refreshing breeze with a pleased smile.

"I'd have my head shaved for the summer," he said, "but on my scalp is tattooed in Polynesian, 'Kill Atara and Rarahu, the bloody traitors.'"

"You know, boss, I wunst lived down Samoa way. I lived the native life in a white hut thatched with palm leaves, my young wife wore garlands of fresh flowers every morning for my hair, and I fed like a native on nothing but baked breadfruit."

"Well, a war war between our tribe and another, and they sent me with a message through the enemy's country. First they shaved my head, then they tattooed the message on the skull, then they made me wait till the hair grew again."

He smiled pensively.

"Mine was a happy life in the South seas," he said, "and if you ever want a safe way to send a message, tattoo it on your messenger's scalp and let his hair grow over it."

## Campfire to Break Up a Cold.

One of the most efficient remedies for breaking up a cold during its earliest stage is camphor. When the eyes begin to water and there is the accompanying tingling of the nose and feeling of chilliness, place three drops of camphor on a lump of loaf sugar and place the sugar in the mouth.

Repeat this every 15 minutes till four or five doses have been taken. At the same time place the feet where they will become thoroughly warm. This will usually prove effectual in breaking up a cold if the cold is taken at its very beginning. For a child but one drop should be placed upon the sugar, and five or six doses administered.—Health.

## Easily Borrowed.

"No interest is so rapidly compounded as on borrowed trouble," says the Charleston News and Courier. And yet nothing is to be borrowed on such slight collateral.—Washington Herald.

## Deaconesses Unpack at the Camp Meeting

\* Flora Harden \* \* Anabel Stewart \*

Methodist Deaconesses had charge of the services yesterday at Desplaines, Ill., camp-meeting. Mrs. O. H. Horton presided at the afternoon meeting and Miss Ida Jordan, superintendent of the Chicago Deaconess home, led the devotions. A novel feature of the musical part of the program was the singing of a hymn by Miss Vina Smith, a deaf mute deaconess. Miss Merrill sang the hymn while Miss Smith translated it with the sign language. Miss Isabelle A. Reeves, superintendent of the Methodist Old People's home, Edgewater, told of her work. She referred to several of her interesting persons who live in the home.

"Many of these dear old saints," she said, "have been among the best givers as well as workers in our churches, and it ought to be as great a privilege to care for them in the years of their dependence as it would be for a loving son to care for his own aged parents who had given their early years for him."

## REPUBLICAN MEETING MULLEN BOUND OVER

Indiana Harbor G. O. P. Gary Business Man Will Men Listen to Congress-man Crumpacker.

(Special to THE TIMES.)

Indiana Harbor, July 17.—The Indiana Harbor Republican club was organized here last night at a big meeting held at the Auditorium. The occasion was graced by the presence of Congressman Crumpacker and Henry Wurzer of South Bend, who had been sent here by Charles E. Riddick of the speakers' bureau.

The club was organized in a spirit that promises to do much good in Indiana Harbor and put among the foremost political organizations in the county. For a long time there had been talk of organizing the club, but the leaders held off until the thing could be done right, and the strong organization of last night is the result.

## Crumpacker Is Cheered.

The meeting was called to order by Charles E. Fowler of Indiana Harbor, who explained the purpose of the meeting, after which he introduced Congressman Crumpacker. Mr. Crumpacker was roundly cheered upon taking the stand and for more than half an hour he held the floor, enjoying a real heart to heart talk with the republicans of Indiana Harbor. He made no set speech but promised to return later in the campaign.

## Others Are Elected.

Henry Wurzer, who was sent here by the speakers' bureau, followed with an address lasting about twenty-five minutes and was followed by E. W. Wickey, candidate for representative from Lake county. After the close of Mr. Wickey's address the organization of the club was taken up, during which time County Chairman F. Richard Schaff made some pertinent remarks pertaining to political organizations.

The officers of the club as elected were as follows:  
President—Charles E. Fowler.  
Vice president—Dr. P. Super.  
Secretary—W. B. Van Horne.  
Treasurer—Felix Ericson.

A committee of ten was appointed to draft the constitution and bylaws and to complete the organization. A second committee of three was appointed to find headquarters and a third and very important committee will take care of the unaturalized foreigners.

## A Nasty Man.

Ann Arbor physicians have recently removed a rubber eraser from the ear of a schoolgirl. She must have been trying to get something off her mind.—Washington Post.

## Be Wise; Sleep Late.

It is the early worm that is the first victim of the bird.—Charleston News and Courier.

## Save the Soot.

A cheap way to keep house plants free from disease is to put a bag of soot in a pail of water, let the contents settle and use a very weak solution for watering plants. Soot is a valuable fungicide.

Good Rule for Life.  
Italian proverb: Take help of many.

## ALDERMAN MOYNIHAN AFTER 10 CENT FARE

Will Attempt to Make I. C. Come to Time Through K. & C.

## TEMPORARY PERMIT WANTED

Improvement Associations in Territory Want Many Concessions Before Granting Request.

South Chicago's chances for getting a ten cent fare down town over the Illinois Central road looked brighter at the present time than they have at any time since the matter has been so vigorously agitated by the local improvement and business men's associations.

The Kensington and Eastern railroad is asking the city council to grant them a temporary permit to lay their tracks through the south end of the Eight and Thirty-third wards and this afternoon the transportation committee of the city council, headed by Alderman Patrick H. Moynihan, will meet the officials of the Illinois Central road to consider the matter.

The reason for asking a temporary permit is because of the fact that the members of the city council will leave on their vacations within the next few days and it will be impossible for them to get together and grant the road the desired privileges.

The attorneys for the Kensington & Eastern road have prepared an ordinance which is very much to their liking but which does not meet with the approval of the residents and tax payers of the south end of the two wards in which the road is asking for a permit to lay their tracks.

## Motive for Permit.

The motive assigned for asking a permit to lay their tracks immediately is for the benefit of the Chicago, Lake Shore & South Bend railway company, who will use the K. & E. tracks to Kensington and then on down town via the Illinois Central. The Chicago, Lake Shore & South Bend railway company are anxious to get their line into Chicago as soon as possible and to do this they must use the K. & E. road, which is owned by the Illinois Central and the officials of one road act in the same capacity with the other.

According to the ordinance that has been prepared by the railroads' attorneys the company gets everything and the residents of the Eight and Thirty-third wards get nothing. This ordinance was made public by Alderman Hbil of the Thirty-third ward and Alderman P. H. Moynihan of the Eight. The citizens and the improvement associations immediately got together and called an indignation meeting which was held down town in the Arcade building, and was attended by a large number of progressive residents of both wards. The meeting resulted in resolutions being drawn up to the effect that the Kensington and Eastern should not be given a temporary or any other permit to lay their tracks until the corporation decided to grant the taxpayers a few concessions, which are as follows:

1. Build an adequate depot at Kensington.
2. Dedicate Front street as a public thoroughfare, giving residents privilege on the street.
3. Install gates and gatemen at One Hundred and Thirtieth street.
4. Improve the different Illinois Central crossings, the same as other roads, by paving them with brick instead of flag or cinders.
5. Remove all the unsightly coal sheds in and about the company's property.
6. The positive assurance that all interurban cars on the Chicago, Lake Shore & South Bend line will stop at Kensington.

## After 10 Cent Fare.

Alderman Moynihan, who is at the head of the transportation committee, will try and make the officials of the Illinois Central meet the requests of the South Chicago patrons for a ten cent fare to and from down town.

Being at the head of the transportation committee the other members will abide by Moynihan's desires in the matter and unless the Illinois Central meets his demands the prospects look pretty poor for the company getting the temporary permit for laying their tracks.

The matter of a 10 cent fare to and from Chicago has been advocated time and again by the South Chicago Business Men's association and the Cheltenham Improvement association was the last to take up the 10 cent fare proposition but nothing further than presenting their demands to the officials of the company was done. Now Alderman Moynihan comes forward with his scheme, which, it is believed, will compel the corporation to meet the taxpayer's requests.

## FIRE LOSSES OF A DAY.

The town of Baltic, Tuscarawas county, Ohio, containing 100 people, was practically wiped out yesterday by fire. The flames destroyed upward of forty homes and business buildings. The loss is estimated at \$100,000.

Fire which started in a lumber yard at Ohio City, O., spread rapidly and for

## EVER WATCHFUL

A Little Care Will Save Many Hammond Readers Further Trouble.

Watch the kidney secretions. See that they have the amber hue of health. The discharges not excessive or infrequent. Contains no "brick-dust like" sediment.

Doan's Kidney Pills will do this for you. They watch the kidneys and cure them when they're sick.

Mrs. F. W. Nimon, formerly living at 22 Plummer avenue, Hammond, Ind., says: "For a year my daughter suffered continually from kidney disease. Her kidneys had been weak from babyhood and she had no control over the secretions especially at night. This caused us considerable worry and extra work. She was run down in health, pale and delicate looking, and in a nervous condition. Having often read of the cures brought about by Doan's Kidney Pills, I purchased a box at Bicknell & Co's drug store, deciding to give them a trial. They were given to the girl according to directions and they took immediate effect. Within a week, the secretions became less frequent and the headaches disappeared, and after taking the contents of four boxes, her condition was excellent. This was over a year ago, and today she is in the best of health."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

a time it was feared the town would be wiped out. The flames were brought under control after the Kuntz planning mill and a number of residences had been destroyed. Loss, \$60,000, partially covered.

J. W. Witta's grain elevator at Lebanon, Ind., was burned last night. The loss is \$3,000, with insurance on buildings and machinery of \$2,500 in the Grain Dealers' Insurance company, Indianapolis; \$1,500 in the Surety of New Hampshire, and \$1,000 on grain in Miller's Mutual of Michigan. Boys are suspected of having set the elevator on fire.

## The Deadlier Jaw.

A cynic says that the jaws of death have no terror for him—he only fears the jaws of life. He is married.—Sporting Times.

## Friendship.

A slender acquaintance with the world must convince every man that actions, not words, are the true criterion of the attachment of friends; and that the most liberal professions of good will are very far from being the surest marks of it.—George Washington.

## MONEY LOANED
